

# Thank you for purchasing a Jennyruth Workshops **Blackbird Box**

- It should be fixed using the metal fixings/battens.
- Screw to a wall or fence or strap to a tree to avoid damaging the tree.

- Position your nest box at least 2m above ground.
- Place in a sheltered, shady spot.
- Face the box away from prevailing winds and in partial shade.

- Clean your box in October/November
- Avoid using flea powder or pesticides which may be harmful. Use boiling water to kill parasites.

# Meet The Team
